YES TO EUROPE

Westminster politicians have failed us all on Brexit. Greens will give power back to people to decide the way forward with a People's Vote. Greens would campaign to Remain in the EU for the benefit of everyone.

NO TO CLIMATE CHAOS

Greens have led the way for years on tackling climate chaos. Every vote for the Greens helps speed up climate action. This means cheaper energy, better transport, warmer homes and hundreds of thousands of new decent jobs.

A FAIRER BRITAIN

A Britain of 'us and them' led to the Brexit vote. Only Greens will take the action needed to transform Britain so it works for everyone again.
