

Winton East Green Party

COUNCILLOR SIMON BULL THANKS YOU!

I am very grateful to the voters of Winton East for electing me as the first ever Green Councillor in Bournemouth. Overall the Green Party did well across the town in the local elections where, for once, we were able to give everyone the opportunity to vote for at least one Green candidate. My family and I have made our home in Winton and I welcome this opportunity to do my best for the ward and the whole of Bournemouth.

I can be contacted at:

simon.bull@bournemouth.gov.uk

Simon Bull grew up in Surrey moving to Bournemouth in 1998. He set up and ran an arts charity for fourteen years working with disadvantaged members of the community; prior to that he worked in finance for many years. Simon is married with two young children and two adult step children and has lived in the ward for ten years. He is a humanist funeral celebrant.

DID YOU KNOW?

Dr. Molly Scott Cato was elected as the first Green Party MEP for the South West in May 2014 having previously been a leading green economics expert.

Since her election there has been a regional quadrupling of membership as she clearly continues to fight for the things that affect us, including:

- Amendments to trade contracts to protect the South West.
- A VAT exemption threshold for small businesses.
- Protecting your homes from mandatory fracking policies.

BRIGHTON GREEN PARTY SUCCESSES; FROM PIER TO HERE?

Brighton & Hove

MP for Brighton Pavilion Caroline Lucas was elected in 2010 and she has proven at every turn that you can combine a thriving economy with social justice and a sustainable economy. In recognition of this she was re-elected in 2015 whilst increasing her voter majority by over 10%.

- Brighton rated the UK's most popular seaside resort with visitors increasing from 8 million a year (2011) to 11 million (2014).
- Residents affected by the unfair bedroom tax, protected by no-evictions policy.
- Nearly 900 empty homes brought back into use.
- European City of the Year for Sustainable Transport in 2014.
- Childhood obesity levels declined while rising nationally.
